

NANDTB-F007

Application for approval as Training organization (ATO)

This is an application for approval by the Netherlands Aerospace NDT Board of the Training organization named below, the Quality System of which has been reviewed against, and is believed to comply with, the NANDTB's published minimum requirements for the structured training of Non-Destructive Testing Practitioners. This application must be accompanied by at least one completed course questionnaire (Form NANDTB-F009).

It is requested that, upon acceptance of this application, the NANDTB arranges an appointment to evaluate this training organization against its published minimum requirements for the structured training of NDT practitioners.

The current applicant fee is enclosed herewith and I/we undertake to remit to the NANDTB the published fees prior to the start of the process.
